

STRIKERS WIN BATTLE OF TWELVE HOURS

One Mine Guard Killed and
One Striker Missing at
Ludlow, Colorado

SITUATION IS CRITICAL

Over 700 Armed Workmen
Pour Shot Into Camp
of Guards

LUDLOW, Colo., Oct. 26.—A general battle between strikers, mine guards and deputy sheriffs was waged for twelve hours today in Berwind canon at Hastings and in the vicinity of the Colorado and Southern station at Ludlow.

Firing started at 3 a. m. and continued intermittently until nearly 4 p. m. One mine guard was killed and according to union men, one striker is missing.

The situation is extremely critical tonight. More than seven hundred armed strikers are reported to be in the field. They patrol the entire district in the vicinity of Ludlow and communication with the camps of Cedar Hill, Tellerburg, Berwind, Hastings, Delagua and Tabasco has practically been cut off.

The firing began near the Colorado and Southern bridge, the scene of yesterday's battle. The guards, it appears, retreated in the direction of Cedar Hill and Tabasco.

At daylight the strikers from the Ludlow tent colony made their way along the hills past Cedar Hill to Tabasco and opened a heavy fire on that camp. The guard who was killed was struck while returning the fire of the strikers near the mine tipple at Tabasco.

The attack on Hastings began at about 11 o'clock.

The shots rained upon the camp from two quarters for nearly two hours, but according to the officials of the Victor-American Fuel company, no serious damage was done.

The final struggle of the day was an attack by the strikers along the Colorado and Southern tracks near the Hastings station on a passing Denver and Rio Grande train, which the strikers declared was carrying mine guards.

MAY CALL MILITIA

DENVER, Oct. 26.—A state of insurrection will be declared in the southern coal fields coal strike district, the militia will be ordered out to conduct a general disarmament of strikers and mine guards, and the importation of strike breakers will be suppressed, Governor E. M. Ammons said tonight if a settlement of the strike is not reached tomorrow.

A conference is being arranged with the operators at 3:30 tomorrow morning, Governor Ammons and Senator Patterson will receive proposals of a settlement from the operators and submit them to the strike leaders. If the work of the conference is fruitless, the troops will be ordered out.

TO ARGUE APPEAL OF DYNAMITERS

Ryan, Tveitmoes and Others
To Be Heard This Week
Through Counsel

CHICAGO, Oct. 26.—The appeal of thirty of the thirty-three labor union officials, convicted in Indianapolis last December of conspiracy and complicity in the McNamara dynamite plot, will be argued before the United States circuit court of appeals here for three days beginning next Wednesday.

At the head of the list of convicted dynamiters were John J. Leary, John J. Kan, and who are seeking reversal of their sentences, are Frank M. Ryan, president of the International Association of Bridge and Structural Iron Workers; Clay Tveitmoes and Eugene A. Clancy, San Francisco; J. E. Munsey, Salt Lake City; John T. Butler, Buffalo; Michael J. Young, Boston; Philip A. Gooley, New Orleans; Frank C. Webb, New York; and P. K. Painter, Omaha.

These and the other appellants were found equally guilty, first of conspiracy and second of illegally transporting explosives. Counsel for the men headed by Chester H. Krum, St. Louis, and Elijah N. Zetina, Chicago, announced today the basis for the appeal would be that there is no such federal offense as conspiracy upon which the convictions were based, and that the government offered no proof of any such conspiracy.

FIGHT TODAY ON CURRENCY BILL

WASHINGTON, Oct. 26.—The Senate banking committee will begin tomorrow behind closed doors a reconstruction of the administration currency bill. The issue is clearly drawn between the bill passed by the House and the central bank plan proposed by Frank A. Vanderlip of New York.

A majority of the Senate committee members favor the Vanderlip plan, but administration supporters declare that such a measure could not be passed in the House.

CALLS FOR REFORM OF PRISON RULES

Member of N. Y. Commission
Reports on Result of His
Week in Penitentiary

AUBURN, N. Y., Oct. 26.—Seven urgent recommendations for reforms in the management of the Auburn state prison were made today by the state prison commission, as a result of the week which the commission's chairman, Thomas Mott Osborne, spent behind the bars in the guise of a convict. Osborne presented the report to the state superintendent of prisons this afternoon. The recommendations are as follows:

Privacy in building new arrivals. Now the men are bathed in a tub in the shop, in full view of the convicts working there.

More frequent baths. One bath a week is insufficient for men engaged in hard manual labor.

Each convict should have three suits of underwear. "At the present time the condition of the bodies and underclothing of convicts is far from healthy because of perspiration. It is an extra suit which each man could use one for wear, one for night clothes, and one would be in the wash. Now the men sleep in their underwear and wear it day times."

Prisoners should be allowed to read newspapers and magazines. The rules for writing and receiving letters need drastic revision. "Take away a man's benefits, if necessary to punish him, but do not deprive him of his friends and family."

"While the food is good, the coffee and tea are execrable," and the report recommends the abolition of the use of tea and improvement in the coffee. Tea, it says, is harmful because it causes constipation and sleeplessness.

A system which sends men to punishment cells on one or two portions of bread and water is brutal and unnecessary.

A graded system of punishment should be adopted for offenses. There is no sense of proportion or fairness in the present manner of punishing. The punishment for whispering is the same as for assault.

There seems no good reason for enforcing a policy of silence. "Men are made to talk and you cannot fly in the face of nature."

In the case of punishment meted to a prisoner involving the extreme penalty of the punishment cells, there should be direct action by the warden and punishment only after a hearing by him.

The sale of tobacco and groceries should be regulated with greater care. Executive order of a shelter article is often harmful to the prisoner.

In Auburn there should be a sale of matches, as in Sing Sing. Men are now forced to use flint and steel.

Provision should be made for rainy days. Convicts are now forced to march through the long yard and often become drenched. On return to their cells they have no alternative but to go to bed or sit up in wet clothes, there being no change of clothing in the cold winter-proof camp for use in inclement weather is suggested.

The kitchen should have a civilian cook. Only a professional cook can obtain the best results from the materials provided.

Prisoners should be allowed for playing musical instruments—should be extended.

The prison rules, which are incomplete, should be recodified. The taking of a convict's record should be simplified.

WIRELESS ELECTRICITY IS USED TO EXPLODE MINES IN THE SOLENT

(Special to the Republican.)
LONDON, Oct. 26.—An experiment conducted secretly in the Solent into the possibility of exploding mines by means of electric waves without direct contact, is said to have been highly successful. The method employed is variously reported to have been wireless telegraphy and other inventions of a similar nature.

The old cruiser Terpsichore, with the water tight compartments closed, was placed over a mine and when the explosion was effected it tore the bottom out of the ship and she had to be hauled out from sinking. It is said that the work was accomplished from a battleship eight miles distant.

FOUR CALIFORNIA MAYORS MAY GO TO LOS ANGELES AS QUEST OF SHRINERS

LOS ANGELES, Oct. 26.—Four California mayors—those of San Francisco, Oakland, San Diego and Los Angeles—may meet here October 31, as guests of the California Shriners, in concluding their "bands around the state" campaign. Invitations were sent by Mayor H. R. Rose tonight to Mayors James Rolph of San Francisco, Frank Mott of Oakland and Charles O'Neill of San Diego, requesting that they participate in the final festivities here.

DUKE PLOWS ESTATE TO GROW FOODSTUFFS

LONDON, Oct. 26.—The Duke of Marlborough today put into practical effect his announced plan of making his enormous estate, Blenheim Park, produce foodstuffs. A large steam plow began to turn over a thousand acres of turf land, which has long been used for grazing and for drilling the yeomanry. The Duke's idea is for England to produce foodstuffs.

BRIEF IN LAND GRANT CASES HAS 40 VOLUMES

PORTLAND, Oregon, Oct. 26.—The brief in the appeal of the Southern Pacific in the old Oregon and California land grant case, being printed in Portland, contains 20,000 pages of

GRAFT CHARGES SPAIN IS WITHOUT FLY ABOUT IN NEW YORK'S CAMPAIGN

Hennessy Accusations Prove
vokes Tammany Leaders
To Reply

M'CALL THREATENS PARTY IS SPLIT UP

Denies That Be Bought His
Place On the Supreme
Court Bench

NEW YORK, Oct. 26.—The campaign for municipal offices in New York city, which will end with the election November 4, suddenly has developed into a seething battle of wits in which bitter charges of graft in public office and political trickery have been made. The entry of John A. Hennessy into the campaign with charges of alleged irregularity has overshadowed all other political moves. Hennessy, formerly managing editor of the New York Press, is "executive auditor" of the state, and an apologist of William Sulzer, deposed governor. Hennessy's position gave him access to state departments and he has just returned from investigation of various state offices. He has made statements, charges and challenges which have aroused the interest of the voters and led Tammany leaders to plan counter charges.

Edward McCall, candidate for governor on the Democratic ticket, issued a statement tonight, denying charges of impropriety by John A. Hennessy. In the latter's recent speech for the fusion municipal ticket, that McCall had paid for his nomination to the Supreme Court bench.

"I want to stamp his utterance or his insinuations," the statement sums it up, "as a gross and outrageous slander, without the slightest basis of truth and constituting an offense that will necessarily call for further action."

In an address today William Sulzer explained that it was not a question of patronage that led to his rupture with Charles F. Murphy, leader of the fusion municipal ticket, but his impeachment and removal from the office of governor. Sulzer said:

"My real trouble with Mr. Murphy was on account of graft. He wanted me to let the graft go. I refused. If I had agreed I would be a governor today."

PROTEST AGAINST JEW PERSECUTION

San Francisco Mass Meeting
Expresses Indignation
Regarding Kiev Trial

SAN FRANCISCO, Oct. 26.—A huge assembly of Christians and Jews at a mass meeting here today voiced indignation regarding the alleged persecution of Jews in Russia. The meeting was held at the Grand Hotel, where speakers included Mayor Rolph, clergymen and rabbis, and prominent business and professional men and women of San Francisco made addresses. A resolution was adopted condemning the Russian authorities who are trying Bellis and accusing the Jews sympathy and support.

Mayor Rolph said the trial was serving to enlighten the world as to conditions in Russia, and might in the end prove a blessing to Jews.

THREE RUNAWAY CONVICTS CAUGHT

Hidden In a Farmhouse in
El Dorado County; Had
Woman In Terror

AUBURN, Cal., Oct. 26.—William Rodney To Samuels and 16-year-old Norman Hale, the three prison convicts who escaped from the prison Friday after overpowering Guard Morse and taking his rifle and ammunition, were captured this morning by the Perry home near Rattlesnake bridge in El Dorado county by Sheriff George McAuley of Placer county and Deputies E. H. Gum and P. H. De-pender. The three were hiding in a room on the upper floor and made no resistance. They were hungry and footsore and had sacrificed the guard's rifle and ammunition for speed.

When the sheriff questioned Mrs. Perry about the fugitives who denied having seen them. Her 16-year-old daughter, however, gave them away.

"Tall the officers where they are, mama, the convicts can't hurt us with these men here," she interrupted when her mother was telling the posse members she had seen no strangers.

The convicts were taken to the Placer county jail. They will be returned to Folsom tomorrow.

printed matter made up into forty volumes of 500 pages each, and when completed will be twice as large as a standard encyclopedia.

FEW MEXICANS GO TO POLLS TO VOTE; HUERTA MAY REMAIN DICTATOR

Indifference Shown Everywhere to Elections—
Congress Will Be Catholic—Diaz Forced Out
of Army—Garrisons Vote For Huerta

ELECTION BULLETINS

DALLAS, Texas, Oct. 26.—Voting in the Mexican general elections today at points along the Texas border excited little interest and the polls closed without serious disorder. At Piedras Negras, opposite Eagle Pass, federal officers cast the votes of the soldiers and unofficial returns gave Huerta more than 2500 of a total of 2550 votes cast.

CALEXICO, Cal., Oct. 26.—In the lower California elections today General Victoriano Huerta received a majority of the few votes cast. Huerta and Blum were the only candidates, although an arbitrary vote was cast for Felix Diaz and one for Gamboa.

ELECTION BULLETINS.
El Paso, Oct. 26.—Although the federal soldiers in Juarez were given orders forbidding their voting at today's national election, the election was not marred by disorders of any kind and 90 per cent of the votes cast in the border town were for Felix Diaz for the presidency. The vote was extremely light. Juan C. Martinez was elected to the House of Deputies from the Juarez district.

SAN DIEGO, Oct. 26.—Little has been learned here about the election in lower California today. Meager reports are to the effect that Rosenda and Tijuana there was some haltingly virtually all the votes being for Huerta and by soldiers.

The people of Tijuana appear to have been utterly indifferent as to the contest. Mayor Serrate of that city who was in San Diego today declared that so far as he knew there were no preparations for holding an election and his remarks conveyed the impression that in the border city the contest for the presidency was not taken seriously.

WASHINGTON, Oct. 26.—Officials in Washington kept in constant touch today with the state department for news from the Mexican elections and President Wilson on his way south, was kept advised of the situation.

Secretary Bryan received a long cipher cablegram from the special American envoy John Lind in Vera Cruz. This message was reported to contain a summary of institutions sent out to the Mexican governors from the Huerta government for the conduct of the elections.

Messages were received tonight from Nelson O'Shanhassy, the American chargé at Mexico City, stating that the elections in so far as reported to the Mexican capital had been conducted quietly and that the voting was extremely light.

According to unofficial advice the exchange of views between the European powers at Paris was preparatory to showing the United States that action in Mexico Huerta by the various foreign governments was not intended as an evidence of unfriendly feeling. It is believed the movement toward showing the United States concerted friendliness was instituted by the French government. Upon the outcome of these diplomatic jarrings depends, it is understood whether the Washington government will issue a note defining its views on the attitude of foreign governments toward the American policy in Mexico.

The next step in the situation admittedly depends upon the outcome of the election today. Should there be no choice and the Huerta regime is continued some diplomats were inclined to believe that definite propositions might be expected from the European powers interested.

The six months limit under which American battleships have been in Mexican waters by permission of the Huerta government expired today. Should the new government be not renewed and a Mexican statute forbids the presence of a foreign ship without permission more than a month at a time.

Ships of the Atlantic fleet will sail this week from Hampton Roads to replace those at Vera Cruz and the expectation that the ships will be changed monthly.

SEVEN DIE IN BIG MILWAUKEE FIRE

Twenty-four Others Are Injured; Loss Estimated
At Half Million

MILWAUKEE, Oct. 26.—Seven dead firemen and twenty-four injured were taken from the ruins of the Grodysky-Babber company plant here tonight, where fire caused a damage of \$500,000. Several more bodies may be in the ruins.

An explosion sent the walls crashing down on fifty firemen. Windows for blocks around were smashed and the flames spread to adjoining buildings. Rescue companies rushed into the blazing ruins and the bodies of the dead and injured were taken out. Prisoners were called and when they saw that it was impossible to get all the men out alive they gave extreme caution to the rescue men. They stood crouched beneath a mass of timbers and bricks with flames shooting forth on all sides.

Several other business houses besides the Grodysky company suffered heavy losses.

MINISTER AT CARACAS

CARACAS, Venezuela, Oct. 26.—The new American minister to Venezuela, Preston McQuinn of Oklahoma, presented his credentials yesterday to Acting President Dr. Jose G. Fortoul. During the audience, congratulations were exchanged over the completion of the Panama Canal.

He was escorted and the death of the 251 men was determined beyond question. The heat in the mine is intense, and for the helmet-clad men carrying the 35-pound equipment, the discomfort is almost unbearable. Breathing becomes hard and there is the almost unbearable desire to tear the helmet from the head. Each man watches his fellow-men closely.

QUET AT VERA CRUZ

VERA CRUZ, Oct. 26.—The elections in Vera Cruz did not disturb the usual Sunday calm of the city, the only noticeable difference being the absence of the weekly bull fighting which was prohibited. The 22 polling places in the city were quiet and unattended spots.

President Wilson's personal representative John Lind, inspected a few of the polls but was unable to find any voters.

MEXICO CITY, Oct. 26.—At the close of the elections today, the indications were that not sufficient votes had been cast to constitute a legal choice for the presidency to succeed General Victoriano Huerta.

No official announcement was made tonight, but it was estimated, judging from the results in the capital, where it was expected the vote would be up to the average, that less than 10,000 of the 80,000 eligible voters in the republic went to the polls. It would be no surprise if the next congress, the members of which also were voted for today, declared the election void.

The leaders of the Catholic party claimed a long lead for their candidates, Federico Gamboa and General Rascon. If this claim is correct, it is generally thought that General Felix Diaz and Senator Requena ran second. The Liberal candidates, Manuel Calero and Flores Magon, had no printed ticket at their polling places, their constituents being obliged to write their names in blank spaces.

President Huerta spent the day at his Popotla suburban home. A decree will be issued by General Huerta tomorrow, increasing the army from 85,000 men, its alleged present number, to 150,000. General Huerta proposed such an increase some time ago, but the Congress which he dissolved limited him to 80,000.

Since the deputies and senators are not subject to the election provisions governing the presidential elections, it is said tonight that the choice for Congress is assured. It is assumed, on the showing so far as known, the Catholic party will secure a majority in both chamber and senate.

WASHINGTON WATCHING

Secretary Bryan received a long cipher cablegram from the special American envoy John Lind in Vera Cruz. This message was reported to contain a summary of institutions sent out to the Mexican governors from the Huerta government for the conduct of the elections.

Messages were received tonight from Nelson O'Shanhassy, the American chargé at Mexico City, stating that the elections in so far as reported to the Mexican capital had been conducted quietly and that the voting was extremely light.

According to unofficial advice the exchange of views between the European powers at Paris was preparatory to showing the United States that action in Mexico Huerta by the various foreign governments was not intended as an evidence of unfriendly feeling. It is believed the movement toward showing the United States concerted friendliness was instituted by the French government. Upon the outcome of these diplomatic jarrings depends, it is understood whether the Washington government will issue a note defining its views on the attitude of foreign governments toward the American policy in Mexico.

The next step in the situation admittedly depends upon the outcome of the election today. Should there be no choice and the Huerta regime is continued some diplomats were inclined to believe that definite propositions might be expected from the European powers interested.

The six months limit under which American battleships have been in Mexican waters by permission of the Huerta government expired today. Should the new government be not renewed and a Mexican statute forbids the presence of a foreign ship without permission more than a month at a time.

Ships of the Atlantic fleet will sail this week from Hampton Roads to replace those at Vera Cruz and the expectation that the ships will be changed monthly.

REPORTS FEDERALS LEAVE CULIAGAN

HERMOSILLO, Sonora, Mexico, Oct. 26.—General Alvaro Obregon wired General Venustiano Carranza, head of the constitutional movement, today that the federals had abandoned Culiacan, capital of the state of Sinaloa. This leaves Guaymas and Mazatlan the only cities still in the hands of the Huerta forces.

There was no election today in the state of Sonora and Sinaloa and the territory of Tepic. The federal garrisons at Guaymas and Mazatlan, according to reports today, have withdrawn from the form of passing ballots for Huerta.

FEDERALS STILL HOLD MONTEREY

LANE, Oct. 26.—The Mexican coast here received a message today that Huerta were still in the hands of federals. The message gave the loss of constitutionalists as 800 killed and 300 captured. The Mexican government at Nuevo Laredo reports the wires again working to Monterey via Guaymas.

BROWNSVILLE, Texas, Oct. 26.—Monterey had not been captured at a late hour last night and desperate street fighting still was in progress, according to official advices received at constitutionalist headquarters at Matamoros today. Private advices said the Constitutionalists had suffered heavy losses and that 3000 federals were engaged.

The Constitutionalists claim to have taken La Cascaida avenue, the Mexican National Railway station and a brewery from which section their troops were forcing the federals back toward the center of the city.

Private telegrams received in Matamoros today, dated Monterey, said the Constitutionalists had been badly defeated in two days of fighting and were in flight with their main body broken up by 3000 federals.

BREKERS OPPONENT'S NECK IN QUARREL

WOODLAND, Cal., Oct. 26.—Arthur Kelly, 60 years old, is at the county hospital with a broken neck and John Snowball, son of H. H. Snowball, one of the best known farmers of Yolo county, is under arrest following what is said to have been an altercation between the two over wages. Kelly is not expected to survive. It is said the man's neck was broken when he was knocked against a fence post by a blow from Snowball's fist.

POUNDKERSIE, N. Y., Oct. 26.—Howard H. Pounds, the aged gate tender, who was charged with allowing Harry Thaw to escape from the Matteawan asylum for the criminal insane, was discharged yesterday by Justice Morchauer. The Dutchess county grand jury refused to indict him.

GOVERNMENT WINS IN ITALIAN VOTE

Some Disorder; One Killed;
Many Wounded; Numer-
ous Arrests

ROME, Oct. 26.—(General elections were held throughout Italy today. Disorder was not grave as expected, although one person was killed and many were wounded. Numerous arrests were made.

The balloting was light, because on account of spring-like weather the people preferred to go on excursions rather than to the polls. Results of the elections will not be known definitely until late Monday, but already the government is assured of a large majority.

Giovanni Giolitti, the premier, has been elected with many members of his cabinet. Others elected include ex-premier Baron Sidney Sonnino and Luigi Luzzatti, the ex-governor of

TWO PASTORS TO EXCHANGE HOMES

Rev. J. A. Walker and Rev. Harold H. Givette, having exchanged positions as pastor of St. Paul's church and presiding elder, will trade homes some time this week. Mr. Walker moving to the parsonage on Fresno street, next to the church and Mr. Givette to the manse of the district clerk at 221 Valencia street.

INQUEST TODAY.

Inquest over the remains of Zorold Garabedian, aged 6 years, who was crushed under the wheels of an auto truck Saturday morning, dying a few hours later at the county hospital, will be held this afternoon at 4 o'clock by Coroner Dean.

IDENTITIES JAP ROBBERS.

Three Japanese arrested Saturday by Detectives Egan and Cochran were identified at the county jail yesterday by the Chinese they shot at and were taken to Armona where they will face charges of assault with a deadly weapon with intent to murder.

Erlylin; Fernando Forti, the Socialist leader; Leonido Blumatti-Hernandez, the Republican leader; Signor Barzilli and the former minister of public instruction, Nunzio Nasi, who served a term in prison for embezzlement and later was elected several times to the chamber of deputies only to have his election annulled.

In a hundred constituencies a fierce struggle was waged, especially between Socialists and Catholics and the second ballot will be taken Sunday.

EMPEROR WILLIAM OF GERMANY CONFERES WITH EMPEROR AT VIENNA.

VIENNA, Oct. 26.—Emperor William of Germany arrived here today on a visit to Emperor Francis Joseph, who warmly welcomed him at the station. The meeting of the two sovereigns, it is believed, will go far towards clearing rumors of coolness between the two countries because of Germany's support of anti-Austrian policies during the Balkan war. The emperors dined together and had a long conference. The German emperor met the leading political personages and started on his return to Berlin tonight.

CLARKE, ON OREGON.
WASHINGTON, Oct. 26.—Rear Admiral Charles E. Clarke, retired commander of the battleship Oregon, when he made her famous trip around Cape Horn at the opening of the Spanish War, today accepted the invitation of Secretary Daniels to be on the bridge of his old ship to lead the international fleet through the Panama Canal early in 1915.

"AUBURN HAIR GIRL" REMOVES DANDRUFF

The "Girl With Auburn Hair"
Represents Parisian Sage, the
Most Pleasant and Invgi-
rating Hair Tonic.

Parisian sage quickly and surely removes dandruff—makes the hair soft, wavy and abundant. It cleanses, cools and invigorates the scalp.

If your hair is thinning out or is harsh, dull and lifeless, do not despair. Follow the example of others whose hair you admire—give it daily attention.

If you have dandruff it is because the scalp is too dry and flakes off. Nourish the scalp and dandruff disappears.

If the hair is dry, brittle and thin, soften it up—make it grow.

Surely, use Parisian sage—it supplies hair and scalp needs. It is delicately perfumed and free from grease and stickiness. It quickly stops itching head, takes away the dryness, immediately removes dandruff, makes the scalp healthy and gives the hair that enviable lustre and beauty you desire.

The "Girl with the Auburn Hair" is in every 50-cent bottle of Parisian sage. Sold at druggists or toilet counters—try it now. San Joaquin Drug Co. recommends it.

PLAN EXTENSION OF POWER LINES SOUTH

San Joaquin Light & Power
Co. Is Reaching Out
Into Oilfields

McKITTERICK, Oct. 26.—The extension of the power lines of the San Joaquin Light & Power Corporation, now that three years ago began the construction of a line extending from the famous Midway district to Lost Hills and points beyond to meet the requirements of the new oil fields, which, commencing with the end of the McKitterick district, now covers a distance of more than twenty miles, representing the North McKitterick tract, the trucks of the Belridge, the Union, the Standard, and various smaller companies, and the Lost Hills area, where are located the properties of the Associated, the Standard, the Standard, Dudley and Dudley and other corporations. At Lost Hills connections was formed with Coalinga, one of the greatest of California's oil districts, and different localities more or less tributary to the petroleum producing area.

The broadening of the power system means much to the people of the San Joaquin Valley, that is now claiming the attention of careful observers of present conditions, and who are deeply interested in the future.

The company has completed a line from McKitterick, Headquarters Ranch at Buttonwillow, and branches therefrom to ranches near Rio Bravo, and to Deep Wells. Headquarters Ranch at Buttonwillow, fifteen miles southeast of McKitterick, is the property of the Miller & Lux company, whose possessions, consisting of real estate, live stock and other interests, are located in several western states, and aggregate in value several million dollars. The direct line from this city to Buttonwillow is fifteen miles in length, and the power reaching the other places mentioned is equal in point of distance. The operation of water wells, the running of machinery, the lighting of buildings and the application of the electric current in other ways to Headquarters Ranch at Buttonwillow and the less prominent ranches of the Miller & Lux company not far away, is a long step forward in the matter of agricultural and industrial development in this region.

Ultimately electricity will bring all portions of Kern county into closer commercial relations. The current is now used for operating and lighting not a few lenses in the McKitterick, Belridge and Lost Hills fields, and with results advantageous to both company and customer. While this is quite important as illustrating the possibilities of the future in the oil industry, the running of lines to rural districts and the consequent great addition to the productivity of ranches through various channels, bringing as it will in its train more money, increased valuation of property and greater tax returns to the state makes every step in the direction of electrical progress of paramount interest.

TULARE, Oct. 26.—H. N. Zimmerman of Ducer has taken a large herd of stock cattle to the Sunset Ranch, where they will be fattened for the market. The cattle belong to J. Norton and are part of a herd which he intends sending to the Sunset Ranch for feeding.

Resinol heals itching eczema

DON'T stand that itching eczema one day longer. Go to any druggist and get a jar of Resinol Ointment and a cake of Resinol Soap. Bathe the eczema patches with Resinol Soap and hot water, dry, and apply a little Resinol Ointment. The torturing itching and burning stop instantly, you no longer have to dig and scratch, sleep becomes possible, and healing begins. Soon the ugly, tormenting eruptions disappear completely and for good.

Prescribed by doctors

You need never hesitate to use Resinol. It is a doctor's prescription, that has been used by other physicians for the past 15 years in the treatment of all sorts of skin affections. It contains absolutely nothing that could injure the tenderest skin. Trial size from 7c. to Dept. T-8, Resinol, Baltimore, Md.

Frederick George, Mgr.

GIVES BEER TO MAN BUT IS ARRESTED

Abraham Devdian, residing at 311 L street and who conducts a restaurant at 1914 L street, was arrested last night by Detectives Egan and Cochran on a charge of selling liquor on Sunday and also without a license. The detective reports that Devdian, according to high reputation, is furnished with liquor. Devdian says he gave the bottle of beer away, but the police say it is against the law to do that.

FINANCIAL LETTER FROM SAN FRANCISCO

The harvest requirements throughout the country are being met with much less difficulty than was anticipated a few months ago, and there is comfort in the reflection that another sixty days will find most of the crops marketed, and the money in the hands of the producers. The accomplishment of this fact with so little disturbance is due largely to the curtailment and conservation in financial and commercial circles that have been in vogue since the beginning of the year. It is not to be understood, however, that the financial situation is in any wise "easy." High rates are likely to continue for some time to come, and many would-be borrowers will have to get along without loans. The over-extended condition of the country is clearly revealed in the abstract of national bank reports issued by the controller of the currency following the call of August 5. On that date the abstract shows, the national banks of the country, collectively, had lost 130 millions of individual deposits in the period extending from January 1, 1912, to September 30, 1913, while loans in the same period were increased no less than 127 millions. A marked decline in cash holdings was inevitable under these conditions, though partially offset by re-inforcements of capital and surplus by new and existing banks.

Eighty out of fifty central reserve and reserve cities, fully half, reporting on August 9, showed legal reserves below the 25 per cent requirement. It may be noted, in this connection, that the Pacific States group of national banks (outside the reserve cities), showed a higher percentage of legal reserves than any other section of the country.

Despite the somewhat weakened state of bank reserves, however, which must be remedied before any material improvement in the money market can be expected, there are no longer any misgivings as to the immediate future, and the situation contains many factors of a reassuring sort. Consistent among these is the favorable trade balance of the United States. For the eight months ending September 1 the excess of foreign exports over imports amounted to 358 million dollars, as compared with an excess of imports over exports of the same amounting to 223 millions. While this ratio of increase is not likely to be kept up, now that the new tariff law is in force, the balance is sufficient to insure the ability of the United States to command gold from Europe if gold shipments should be needed.

CURRENCY BILL

The proposed currency bill is now before the Senate, which is showing disposition to give it prompt consideration, and it is more than likely that action will not be reached until after the regular session of Congress begins in December. Marked opposition to certain features of the bill was developed at the national convention of bankers, held in Boston last June, and while the provisions of the bill embody many principles of banking and currency reform that the bankers have advocated for years, there is an almost unanimous feeling that it entails unwelcome and unnecessary hardship upon the existing national banks, and its drastic provisions should be modified. Particular sections are made to the compulsory measure, which requires national banks to furnish all the capital and most of the deposits for the federal reserve institutions—under the pain of forfeiting their charters—while having almost no voice in their management. As Mr. Hopburn, chairman of the currency committee of the American Bankers' Association, stated at Boston:

"If the government can appropriate one-tenth of a bank's capital in the manner provided by this bill, they may appropriate one-tenth next year, and so on until the capital is all transferred to the government bank. If they can do this, the compensation at 5 per cent this year, they may make it 4 per cent next year, and 3 per cent, 2 per cent, 1 per cent or nothing—a very simple and easy process whereby the entire capital of the banks may be transferred to the government. For those who do not believe in socialism it is very hard to accept and ratify this proposed action on the part of the government."

There is no more logic or justice in compelling the banks to furnish capital for a government banking institution than there would be in compelling the newspapers to furnish capital for government newspapers, or to compete with other newspapers; or in compelling the railroads to furnish capital and traffic for a government railroad. Suggestions to amend the act so as to eliminate these unwelcome provisions are heard by Congress with respectful tolerance but no change of attitude. Yet the bankers have not asked for control of the reserve banks, but only minority representation on the board; and that subscriptions to the reserve bank stock be permissive, not compulsory.

Unless the business public assents to the new principle of government set forth by the advocates of the bill, in time business men about the board in private capital in the form of bank shares can be commanded for governmental purposes, against the consent of the owner, who may not private capital in any other form be treated in this manner? It is doubtful if the socialistic tendencies of the times have progressed as far as to make the prospect attractive to the majority of citizens. No one doubts that the administration is actuated by an earnest desire to benefit the commercial interests of the country by framing a measure that will improve and enlarge credit facilities. But would not success be better assured by making the plan a matter of bankers and thus securing their friendly cooperation, rather than by attempting to drive them at the end of a club, into an unwilling participation?

CALIFORNIA BUSINESS

That conditions in California are nearly if not quite normal, may be judged from the fact that the state banks of the state for the nine months ending September 30. As compared with the same period of 1912, San Francisco shows a loss of only 6 per cent, and Oakland 7 per cent. On the other hand, gains are recorded in

PRESIDENT IS GIVEN WELCOME IN GEORGIA

Will Speak Today at Commercial Congress at Mobile

ON BOARD PRESIDENT WILSON'S SPECIAL TRAIN, ATLANTA, Ga., Oct. 26.—Thousands of southern folk gathered today in great cheering throngs to welcome President Wilson to Dixie land as he sped through Georgia enroute to the Southern Commercial congress at Mobile, Alabama, where he will speak tomorrow.

"It is like coming home again," said the President.

Wilson shook hands with many but refrained from speeches.

President Wilson was startled as he was shaking hands with a crowd at the railroad station here by the loud explosion of a photographer's overloaded flashlight. The photographer was ejected from the train shed. President Wilson ceased shaking hands and turning to the photographer shook his finger and said something that could not be heard.

The President refused to comment on the Mexican situation.

NEWSPAPER CONSOLIDATION.
DENVER, Oct. 26.—Announcement was made yesterday by John C. Shaffer of Chicago and Denver that he has purchased the Denver Republican from the heirs of the late Senator N. P. Hill. No consideration was made known. After tomorrow's issue of the Republican will be consolidated with the Rocky Mountain News. On Thursday Shaffer concluded negotiations for the purchase of the Rocky Mountain News and Denver Times. This change will leave one morning daily in Denver.

Los Angeles, 7.7 per cent; Sacramento, 23 per cent; San Diego, 9.7 per cent; Fresno, 15.6 per cent; Stockton, 3.8 per cent; San Jose, 8.8 per cent, and Pasadena, 3.4 per cent. The decrease in San Francisco is more than accounted for by the different method of clearing sub-treasury checks, which are not included in the totals as they were last year.

In point of building activity, San Francisco ranked fourth among the cities of the country for the month of September. The figures for the first twelve cities, as published by the American Contractor of Chicago, follow:

BUILDING OPERATIONS IN SEPTEMBER

New York	\$9,413,000
Chicago	7,558,000
Philadelphia	4,340,000
San Francisco	3,257,000
Detroit	3,056,000
Cleveland	1,940,000
Los Angeles	1,745,000
Grand Rapids	1,573,000
Minneapolis	1,449,000
Syracuse	1,437,000
Pittsburgh	1,434,000
St. Louis	1,150,000

Shipments of fresh deciduous fruits from California, to October 15, totaled 11,912 carloads, as compared with 11,563 3-4 cars to the same date in 1912. Prices generally have been higher than last year and conditions in the fruit districts are correspondingly prosperous. The output of dried fruits will fall very short of the average, and the product for the most part has passed from growers' hands. In canned goods the year has been fairly satisfactory, with a curtailed output, moderately good prices and a steady demand that has practically closed up the supply. By the end of the year the bulk of California's agricultural products should be out of first hands and the money available for purposes of trade.

Following upon the heels of deciduous fruits comes now the vanguard of citrus fruits, already enroute from Fresno county to Australian markets. Within another month the citrus movement will be briskly in progress. The outlook at present is for a seasonal yield 60 to 75 per cent of the state's normal output—American National Bank Bulletin.

ADDRESSED TO WOMEN

IS YOURS A Case of "Nerves?"

Hot flashes, dizziness, fainting spells, headache, bearing-down pains, nervousness—all are symptoms of irregularity and female disturbances and are not beyond relief.

Favorite Prescription

is that of a famous physician unusually experienced in the treating of women's peculiar ailments. For forty years it has been recommended to suffering womenfolk. Thousands of women can bear witness to its beneficial qualities. Perhaps its aid is all that is required to restore to you perfect health and strength. Now is the time to act, write Dr. E. V. Pierce, Buffalo, N. Y.

I AM NOW CURED

My Dear Dr. Pierce, of San Francisco, Calif., writes: "I take pleasure in recommending your wonderful remedy, and wish to say in behalf of your 'Favorite Prescription' and 'Golden Medical Discovery' that through their use I am now cured of the various troubles that a woman is liable to. These remedies have done for me what no other medicine could do. I thank you for your advice."

Suggestions to Housekeepers

Specially Priced for
3 Days

Our system of offering certain standard and reasonable goods at special prices for the first three days of each week has met with much favor. We are offering for this week unusually attractive articles from all departments. They are quality goods.

Grocery Department

JONATHAN APPLES, grown in the high Sierras, rich, red, firm, crisp and of unusually good flavor. Regularly \$1.50 a box. Now \$1.50.

WALNUTS, of the new crop, well filled. Regular 25c a lb. Now 20c.

RED KIDNEY BEANS, regularly 15c for a 2-lb. tin. Now 2 for 25c.

Bakery Department

OUR BAKERY is rapidly becoming famous for the excellence of the bread, cakes, pastries, etc.

FRENCH PASTRY and fancy cakes are just the thing for your afternoon tea.

Birthday and wedding cakes are another thing we specialize in. We bake these to your order and guarantee satisfaction.

Perfection and milk bread has won a reputation that makes it preferred.

Mince and pumpkin pies. Just like home made.

Crockery Department

EXTRA SPECIAL

Cut glass water set, 7 pieces, new butler cutting. Sells regularly at \$4.50, specially priced at \$2.75.

Hand painted bread and butter plates. The values, now at 65c.

Tumblers, plain blown lead glass, regularly 50c a dozen, now a set for 25c.

New full goods in fancy china being opened daily. We will be glad to show them to you.

Delicatessen

Appetite-tempting delicacies that add much to the enjoyment of the table. Among them are:

Fancy select oysters in bulk.

Roast meats, the very finest.

Chopped beef, fancy sausages, salads, Swiss cheese, etc.

Olives, fancy local pick, quart regularly 30c, now at 25c.

Mince meat that sells regularly at 20c a pound, 2 for 35c.

TWO STORES—J AND TULARE—K AND KERN STS.

Your Traveling Telephone Horizon

WHEREVER you go, within the Bell system, your telephone horizon travels with you.

No matter where you are, the Bell Telephone is the center of a large talking circle.

You can travel the length and breadth of the country and never be beyond the reach of the Bell telephone.

Wherever you are, it links you with your home and business.

You may be a thousand miles from home, yet in a few minutes, you may hear the voice of friends or business associates.

And wherever you go it is the same. Always there is the same efficient service of the Universal Bell Telephone system linking you with those you have left behind.

Every Bell Telephone Is a Long Distance Station

SOUTH AT EXPOSITION

A prominently displayed "policy story" in yesterday's Los Angeles Times indicates that there is to be a concerted effort in Southern California to induce the supervisors and exposition commissioners in that section to recede from their refusal to participate in the Exposition at San Francisco. The Times reiterates the objections made in Southern California to the conditions of participation, and argues that the objections are valid, but concludes that inasmuch as all the other counties in California have accepted these conditions, and have formally invited the southern counties to join with them, the proper course will be for business men and other influential persons to join in asking the southern supervisors to accept the invitation. It is recognized that the Exposition authorities, having already agreed with fifty counties on one set of conditions, could not offer other conditions to the seven southern counties without thereby being guilty of breach of good faith and of contract. There will be a million tourists at the Exposition, and when they ask why Southern California is not represented, it will be no answer to say that they differed on certain matters of detail, to which all the rest of the counties agreed.

The argument is so sensible and so compelling that it is scarcely conceivable that the southern supervisors will longer hold out against it, especially if they are sustained in reaching a new conclusion by the advice and support of a considerable body of influential citizens. Even if it were conceded for the sake of the argument that the objections raised by the southern counties were valid, the mere fact all the other counties agreed to them and now invite the southern counties to do likewise, should be conclusive against further urging those objections. There are some rights which it is not justifiable to stand out for, after every one else has surrendered them.

But the fact is that the fifty northern counties would not have agreed to improper and onerous conditions, and they have not done so. While these counties would doubtless have been pleased if some one else had paid for their building—who of us would pay for anything if it could be got without?—they realized that the only way to have a building was to pay for it, and that the method of apportioning the expense in proportion to the space occupied, was the most equitable and economical possible. Except as a matter of form, this \$2.50 a square foot is not paid by the counties to the Exposition, nor for the space. It is simply the method of apportionment by which they pay for their buildings. If they had separate buildings, they would pay for them. If they had group buildings they would pay for them. Since they have a single building, this by the method of apportioning the necessary expense. It will produce more results, at less expense, for the California counties, than could be had in any other way. The erection of such a building is not an Exposition expense, chargeable to the Exposition, any more than is the French building or the New York building. The state government might have appropriated the cost, out of their general tax levy, but it did not do so. The state Exposition Commission could have paid out the amount from the \$5,000,000 voted by the state for exposition purposes, but in the judgment of the commission this was not an exposition purpose, to which the money could properly be devoted. Besides, they had tied up the money for general exposition purposes, by contract long before this issue arose. There remained only to build the building just as all other such buildings are built—at the cost of the localities represented. This is to be done, and the southern counties, in joining with the rest of the state, will be not surrendering a right, but exercising one.

JORDAN SQUELCHED

Frank Jordan has broken, once more, this time by refusing to attest the rubber-stamp signature of Acting Governor Wallace, advised by the governor's authorization to supply routine notarial commissions. It seems that just after Governor Johnson's departure for a three weeks' vacation in the East, Governor Wallace was taken sick, and had to go to a Los Angeles hospital for an operation. He is not confined to his bed, but is in constant touch, by telephone or telegraph, with the Governor's office, and announces that he can it necessary go to Sacramento, and will do so if anything of importance comes up. For the present, there is nothing but routine business, which can as well be transacted by telegraph, without subjecting the acting governor to the inconvenience and risk of leaving the hospital prematurely. He is not "incapacitated" in any serious sense from performing the duties of the office, but is in fact, actually performing them. Up to the administration of Governor Pardee, California's governors were not in the habit of residing in Sacramento and attending daily at the governor's office. The present situation, for a few days at a time when there is nothing but routine business to transact imposes nothing worse than what was once

the regular condition. But Secretary of State Jordan, indulging his usual penchant for trouble, did manage to hold up the routine business for a day or two, until he received an opinion from Attorney General Webb, that it was quite sufficient for Governor Wallace to authorize his signature without going to Sacramento personally to affix it. The Attorney General further rather pointedly reminded Jordan that Governor Wallace was a better judge of his own capacity than the Secretary of State could be, and that the procedure to which the objection was raised was common and had been sustained before. So Jordan is squelched again. But never mind. He will bob up serenely again next time. Any man who could face unshaken the revelations made in the investigations last winter by the board of control and legislative committee investigations, is not going to be troubled by a mere call-down from the Attorney General. However, it is well to remember that the only man who "fought state business to a standstill"—the little there was of it—was Secretary of State Jordan himself.

All the things that Sulzer is now saying about those Murphy of Tammany Hall and his disposition of Sulzer's campaign funds may be doubtless true, but the place for the former governor of New York to have said those things was before the court of impeachment, and he did not do so. It is too late now. He had better leave the fight on Tammany Hall to be made by some straighter man.

WIDOW AVOIDS SUICIDE PACT; FIANCE SHOTS.

LOS ANGELES, Oct. 26.—Railing to persuade his fiancée, Mrs. Elizabeth Harding Carhart, widow of the late Judge Carhart, to enter a suicide pact with him, James Nicholson, son of a wealthy Hollywood family, ceremoniously ended his engagement to the rich widow by discharging his revolver in her apartment at 435 South Grand avenue. An hour later Nicholson was in the city jail and Mrs. Carhart was making efforts to secure his release.

MILLION REGISTER FOR FEDERAL HOMES.

NORTH PLATTE, Neb., Oct. 26.—Registration booths at North Platte, Valentine and Broken Bow land offices were closed last night for the drawing of Government lands in the North Platte Forest Reserve and the Fort Niobrara Military Reservation. Judge James W. Witten, who is superintendent of the work, said that the present drawing would bring the registrations for Government homes to more than one million.

MAY NAME WOMAN CHIEF OF POLICE.

CHICAGO, Oct. 26.—A woman for chief of police of this city is being seriously considered by Mayor Harrison, according to a story in the Evening Post today. The mayor has not made known his choice for successor to Chief McWeney, resigned, but the Post learns that Mrs. Gertrude Howe Britton looms large in the mayor's canvass of the field. Mrs. Britton is a woman of independent means who has for years been prominent as a social worker.

SUSTAINS SLINGSBY VERDICT. SAN FRANCISCO, Oct. 26.—The state court of appeal sustained yesterday the action of Judge Duane of the superior court in dismissing the case against Dr. W. W. Frazer of Weaverville who was charged with falsifying a public document. Dr. Frazer, who is now in jail, having aided in the alleged substitution of a counterfeit for the still born infant of Lieutenant and Mrs. Charles Slingsby by filing a false birth certificate. The case grew to attract wide interest when Lieutenant Slingsby's father died in Yorkshire, England, leaving him an estate of a million.

105. HE LIKES TO SEE TANGO. Lazarus Pinkelstein celebrated his 105th birthday and—Kissup—together, his immediate family, consisting of 65 children, grandchildren and great-grandchildren, assembled to do him honor. Pinkelstein is active and healthy, and takes interest in politics, baseball, the fashions, and pleasures of the young.

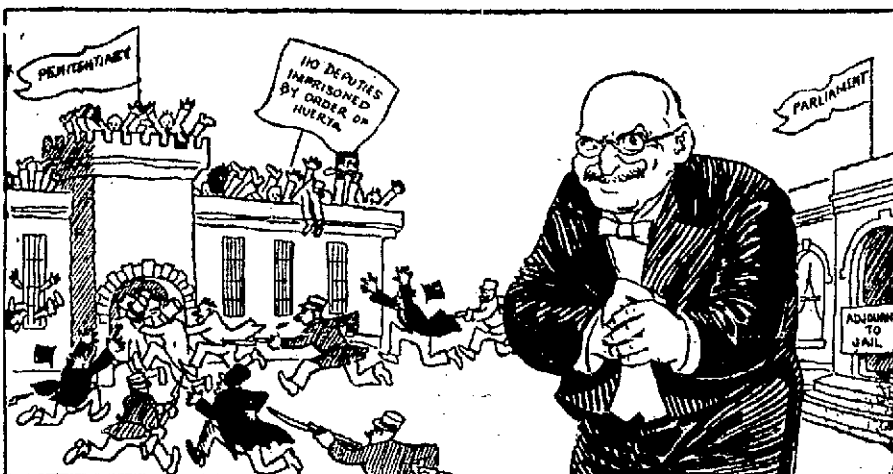

PRICE OF RADIUM. Industrial journals report a marked reduction in the prices of radium preparations of late. The total production of radium bromide, per year is between 2 and 3 gms. In the radium preparations produced in the Austrian radium preparation works amounted to 14.1 gms., containing 2,617 gms. of pure radium chloride, valued at \$214,000. Early in the present year radium bromide sold at \$105 per milligram in Germany. In July, however, sales were made in Vienna at about half that price. As a reason for this decrease is attributed the fact that mesothorium, as well as radithorium, have been found to be employed in place of radium, especially in medicine. Mesothorium more active than radium can be obtained at a cost of only \$12 per milligram. Although the life of mesothorium is short, by mixing it with radium salts a long-lived preparation is said to be obtained.

SOLON DOES FAMILY WASH. State Senator Edmund Beall of Alameda county, who is now in the hospital, has been assisting state officials in the wash, dumped it into the electric washer, and sent was engineering a first rate emergency laundry. In an hour the clothes were spick and span, and the senator donned his bathrobe and caught the express train to San Francisco. (Alameda) dispatch to Philadelphia Inquirer.

The WORLD'S MYSTERIES

DID INDIAN GIRL LEAD LEWIS AND CLARK?

The most hazardous and the most significant journey ever made on the Western continent—a journey that rivals in daring and exceeds in importance the expeditions of Stanley

THOUGHT TO BE BODY OF LOST AVIATOR.

ISLE, I. L., Oct. 26.—The body of a man who floated ashore on Puna Island today corresponded somewhat with the description of Albert Jewell, the young aviator who set out from Hampton Plains, L. I., in his monoplane nearly two weeks ago and disappeared. The assumption was that he perished at sea.

SECRET THREATS MADE AGAINST STEEL CHIEF.

CHICAGO, Oct. 26.—Threatening telephone calls and messages to the hotel apartments here of Elbert H. Gary, chairman of the U. S. Steel Corporation, caused the steel chief, it is reported, to call in the assistance of private detectives and to isolate his room from outside communication. The most recent of the threatening communications is said to have been received this morning.

THE MODERN MAID.

It was getting late at night when the servant girl returned from the shops with various domestic purchases. As she explained the transaction to her mistress she cried out suddenly: "Here! if I haven't forgotten the 'an' eggs for breakfast!" "That's a pity," observed the mistress, but added, with kindly philosophy, "Never mind. The shops will all be shut now. We shall have to manage in the morning with bread and butter and marmalade. The girl stared. "And what shall I have?" she inquired.

"Well, Ellen, I suppose you'll have the same as we do," replied the mistress. "Yes, Mrs. X," responded Ellen, with some severity, "but let me tell you I can't do my work unless I'm properly fed."—From the Manchester Guardian.

and Livingstone in the wilds of Africa—a journey that resulted in the greatest real estate transaction ever recorded in history and gave to the world riches beyond comprehension, was the Lewis and Clark expedition in 1804.

This journey was naturally full of hardships, and Lewis and Clark were engaged for more than a year and a half encompassing the wilderness before they finally saw the blue line in the Western horizon which told them that the end of their journey was at hand and that they had crossed the continent from Missouri to the Pacific.

The stories of the adventures of Lewis and Clark have filled volumes, but the romance of the march has been heightened by the tale that an Indian girl plotted the party and that without her assistance they could hardly have succeeded. The name of this Indian girl, it has been discovered of recent years, was Sacajawea, but in the journals kept by the explorers little attention is paid to the part she played in the success of the expedition. Only lately different studies in the West have started movements to honor this woman by the erection of monuments.

In her lifetime this Indian girl did not receive any personal recognition of the service she rendered these explorers, but the history of her march since then has brought a much keener appreciation of her assistance from those who have taken the interest to examine and unravel records of her deeds.

Recent investigators have determined that Sacajawea was a Shoshone woman, the wife of a French interpreter, Toussaint Charbonneau, and the story as now told, is as fascinating as a piece of knightly fiction. The statement of identification of this woman has met with ridicule, suspicion and denial, but it would appear to be corroborated by those of unquestioned integrity.

Sacajawea's life has two periods—that about which history knows, and that about which nothing can be learned. It has been this latter period that has been the stumbling block. We see her in the vigor of her splendid young womanhood; she disappeared as mysteriously as she appeared, and when she again is visible it is as the aged Sacajawea, white-haired and well preserved.

and Baptiste, the baby she carried on her shoulder, which was created by the women of that city. How much of the story of the Indian girl is true, and how much romance, it is difficult to say, but in the past ten years the name of Sacajawea has taken a place aside of that of Pocahontas for the assistance she gave to the paleface race.

"THE TRAIL OF THE LONESOME PINE" AT THE BARTON TOMORROW NIGHT

SCENE FROM "MADAM SHERRY," AT THE BARTON THURSDAY EVENING

Those who have read John Fox's delightful story, "The Trail of the Lonesome Pine," must have realized that June, the primitive mountain maid, was indeed coy. In Eugene Walter's thrilling dramatization, which comes to the Barton tomorrow night, Charlotte Walker in the role of June is even more coy on the stage than Mr. Fox made her in the book. Her primitive love for Jack, the stranger, is so strong that she is not a bit backward in hitting her real feeling toward him. Mr. Walter has realized this fully, and he has accentuated this trait of a primitive maid, such as June is, and which Miss Charlotte Walker enacts wonderfully, bringing as it were to life a character that millions have read and dreamed about.

Of course the visualization of June and her life has been made all the more perfect by the splendid production of the play, the story being truly set off in an elaborate scenic dress, as this great production has ever had done before with a drama.

The company is an unusually strong one, and the beautiful story of primitive ways among a hardy race will appeal to all who followed the trail in June's young life in the book.

"Madam Sherry"

The attraction at the Barton next Thursday evening will be "Madam Sherry."

With an excellent company of players headed by John L. Keener, the stellar musical attraction, that has won success in nearly every city of the civilized world, will soon dance and sing its cheer into the hearts and smiles of lovers of tuneful music, delightful merriment and pretty girls.

The book is by Otto Hauerbach; the score of the present version is Karl Rossmann's, and the critics of the east and west of his best work in "Madam Sherry." The merit of the comedy itself is famous, to say nothing of the effective choral and orchestral auxiliaries. With each succeeding season of "Sherry," the production has become more perfect.

Valley News

HUME SAW MILLS ARE CLOSED FOR WINTER

Demonstration of Tobacco Culture in Orosi District

OROSI, Oct. 26. — The saw mills at Hume have closed for the winter. The cut was big this year.

N. J. Westman has just completed a new 12-inch well, 125 feet deep, on the high school grounds. He reports favorable conditions for a large flow of water. A centrifugal pump, with electric motor power will be established at once.

The most interesting type of culture tried yet in that of Turkish tobacco, on the Sheridan tract in Orange Cove. It has been demonstrated beyond question by the growers southeast of town, that tobacco is a very profitable crop in the San Joaquin Valley. The tobacco between the irrigation canals, the citrus culture, and money invested.

Free to the Land Company's orchard, which were planted less than sixteen months ago, have good specimens of oranges. Most of the oranges were taken off for the good of the trees, but enough were left on to make a display at the Citrus Fair to be held at Visalia in December.

Leroy McCormick, formerly of Lincoln, Neb., is visiting his father, Fremont McCormick. McCormick is a recent graduate of the law college of the University of Nebraska, and is prospecting for a location.

The students of the high school have completed examinations, covering the first six weeks of the various courses. These examinations are held at six-week intervals, to provide an examination at the middle of the year.

Roy Demaree, of the Demaree Electric Supply Company, of Dinuba, has installed an electric heating system for the Orosi National bank.

Miss Anna L. Harris of the high school, who is a member of the English department, spent the week-end in Fresno, and attended the Alice Neilson concert.

An event at the Schilling ranch on Friday evening had the dual purpose of social enjoyment and the organization of a fund for the young people of the community, under church auspices. Mrs. J. L. Pogue, president of the Tulare Christian Endeavor Union, was present and addressed the assembly.

Material for the construction work on the new Santa Fe branch through Orosi is now being hauled by trains on the new track to points somewhat north of Orosi.

G. E. Workman has arrived and taken up the development of land in the Orosi Farms tract.

Miss Adelaide Reed, worthy matron of the local Santa Cruz, is attending grand lodge at Santa Cruz.

SUNDAY SCHOOL GIRLS ENTERTAIN MOTHERS

OLEANDER, Oct. 26. — A delightful social affair was enjoyed yesterday afternoon at the United Presbyterian parsonage in Easton where the fourteen girls of Mrs. Crook's Sunday school class entertained their mothers, and the assistant teacher of the class, Mrs. Curran.

The girls rendered a program of songs, a violin solo, piano solos and recitations, after which they persuaded the mothers to engage in a few games.

A dainty two-course luncheon was served and all pronounced the girls royal hostesses.

The class is organized under the name, Missionary Helpers, and through a number of missionaries.

Last year they sent almost thirty dollars to the foreign field.

The members of the class are: Alice Peterson, Mary Hansen, Gertrude Groves, Clara Larson, Ruth Reed, Marie Irwin, Cecile Walker, Henrietta Frank, Marjorie Brewster, Lois Crooks, Doris Moltzen, Mattie Johnson, Esie Lange and Edna Shimmin.

INVENTS DEVICE FOR GRIPPING OF CABLE

MARICOPA, Oct. 26. — Much interest is being shown by oil men over the new device for gripping cable or sucker rods to be used on oil wells recently patented by Bruce Minkler.

The device is very simple and has a powerful grip which will not injure either wire or polished sucker rods.

Minkler has interested with him C. W. Hansen and E. J. Johnson, and the company now have plans under way to put the article on the market.

As the tools used for that purpose at this time are very crude it is thought that Minkler's patent will prove a wonderful saving both in time and material over the present method.

The company will soon incorporate and start manufacturing the device and will place it on the market, establishing agencies in all of the oilfields in the United States.

Already the Fulton Fuel company, the Snook Oil Co. and the M. J. & M. O. Oil Co. have adopted the tool for use in their large work, and the superintendents are loud in their praise of its value.

COALINGA NOTES

COALINGA, Oct. 26. — K. P. Jayne returned on the late train last night from Fresno, where he spent the day on business.

Mrs. W. J. Palenbury was an arrival last night from Fresno.

Miss Dulin, the city librarian, returned from Fresno, where she attended the meeting of the county librarians.

Jim Clark, our city marshal, returned from Fresno on the 10 o'clock train last night.

Cody spent yesterday in Fresno.

Frank Sooy, superintendent of the Standard Oil Company, who has been absent on a trip for the past week, has returned to his home in Nevada county, and will be in Coalinga tomorrow.

W. H. Fenneman was an incoming passenger on the evening train to inspect the Coalinga branch of the Independent Well Supply Co.

Hearty Law is spending the week-end in San Francisco.

J. H. Bird is expected home from San Francisco tomorrow morning.

COALINGA WEEK-END SOCIAL HAPPENINGS

COALINGA, Oct. 26. — The first regular club social of the Coalinga Women's club was held Wednesday afternoon at the re-elected president, Mrs. J. W. Tennant. The rooms were decorated in greenery and Halloween lanterns, black cats and witches springing from every nook and corner. Mrs. W. H. Fenneman addressed the members present, congratulating them on the work attended to this year, and on having chosen such an able leader. Mrs. Tennant responded, thanking the club for the assistance given her during the past year.

The musical program followed. Elizabeth Laird performing at the piano, and Edward Cooper, violinist. Mrs. A. Carlsson sang two numbers, "Absent" and "Four Leaf Clover." Mrs. W. W. Wickline, as chairman, was ably assisted by Mesdames A. E. Taylor, A. E. Carlson, G. M. Baker, W. H. Fenneman and H. Gentry in serving refreshments, consisting of orange ice in miniature, punch, cake and coffee.

The dramatic section of the club met at the club house at 3 o'clock Saturday afternoon for the purpose of arranging a year of study of drama under the supervision of Mr. Thos. Geor of the union high school. The book section will hold their first meeting next Wednesday, October 23rd. This section contemplates following out the line of study pursued last year, using Burton's "Masters of the English Novel" as a text.

Mr. and Mrs. Stewart Ambrose, who were married in Hamilton last week, were given a silver service at the American Petroleum Club on section 18, by the many friends of Mr. Ambrose. Mr. Ambrose has been in the employ of the American Petroleum Co. for many years and is extremely popular in both the field and city here. Mrs. Ambrose is a new arrival from Nova Scotia to join her prospective husband. Many beautiful and useful presents were showered on the newlyweds, the American Petroleum Club presenting them with a handsome set of silver service, a set of rocking chair. After several hours of dancing and other amusement refreshments were served in the club house, after which all departed, wishing the bride and groom a long and happy wedded life.

The ladies of the American Petroleum Club are busy making final preparations for the masquerade ball to be given at the club house next Friday night. This is to be a Halloween affair, and a good time is assured all who attend. Already many of the townfolks are planning to accept the invitation to be present.

The third anniversary of the Welcome Club was marked by a brilliant gathering at the residence of Mrs. Harvey Anderson on the Esperanza house this week. Mrs. Anderson is the president of the club, and had assisted her at this reception Mesdames B. P. Strickland, T. E. Washburn, D. Smith and B. Lavey. After several addresses were listened to, the next refreshments were served. The next meeting of the club will be held at Mrs. Goodenough's home on the B. & B. Oil Co. Wednesday, October 23rd, at which meeting all officers and members are requested to be present as several important matters are to be considered.

San Joaquin Rebekah lodge will hold their annual masquerade ball at the old opera house next Thursday evening, and all members are working hard to make the affair a big financial success. This is to be a sheet and pillow case masquerade, and handsome prizes are to be awarded to the most unique costumes made. As this is the first masquerade of the season, an unusually large crowd is expected to attend.

The members of the Growler's club are planning a "hard times" social to be held at the club rooms on Halloween.

TO SECURE SERVICES OF NOTED SURGEON

KINGSBURG, Oct. 26. — J. W. McIntyre has gone to San Francisco to consult a noted surgeon at the Mayo Bros. hospital.

Intyre is in regard to the case of his brother, Neil McIntyre, at Riverside, whose spinal cord was nearly severed by a shot from a bobo he was arrested a year and a half ago, while a policeman at Riverside. The wound may have been a laceration at first, but it is now a serious one. The surgeon, who is in San Francisco, may be induced to go to Riverside to pass his opinion as to the possibility of aid through an operation. If this is determined on, the injured man will be taken to Rochester for that operation.

RIVERBANK WANTS ON STATE HIGHWAY

RIVERBANK, Oct. 26. — Guy M. Rush, president of the Guy M. Rush Company, arrived here on Thursday from Los Angeles and will be present in the evening at the meeting of the highway sub-committee regarding the bringing of the state highway through Riverbank, Oakdale, Knight's Ferry and Soledad.

This movement will put Riverbank on a 45-mile stretch of high grade road with a direct route to the Yosemite National Park. The merits of the proposed highway will be discussed at a meeting at the state highway commission this week at Sacramento.

RIVER AT ANTIOCH LOW; SHIP WATER

RIVERBANK, Oct. 26. — Riverbank is now shipping daily ten cars of water to Antioch for engine use on the Santa Fe. The water at that point is so low in the river that the tide coming in spoils the fresh water making it unfit for use. The Santa Fe recognizes that the water at Riverbank is by far the best on the line in the state and whenever water for outside purposes is needed it is always shipped from there.

NEW POOL HALL FOR RIVERBANK

RIVERBANK, Oct. 26. — Messrs. Burnett & McDonald of Watsonville, arrived in Riverbank this week and Wednesday signed a lease for a three-year term on the Forney building on Santa Fe street in which they will, as soon as the building is completed, open a pool hall. This is the first city nearly destroyed by fire. The material is now being put on the ground for a 35-foot addition with two stories. The upper floor will be used as a lodge hall.

Neil White & Co. 1140 J STREET

So varied and altogether pleasing in the new program at the Princess theater, starting last night, that to depict a feature is difficult. Most appealing is the act of vaudeville, however, is the act of the Rondas Trio. It is a most surprising conglomeration of singing, playing and skillful trick bicycle riding. The trio, two men and a woman, first appear in song and a novel athletic dance. After that comes the bicycle riding and there have never been three more clever people at this on the local board. The act closes with one of the girls doing a Spanish dance in costume, while the others, mounted on a unicycle and an inverted bicycle, play musical instruments.

The pictures of this bill vie with the vaudeville for popularity, especially the new Rex-stone comedy, "The Fatal Taxi." The cast includes a charming girl, a rotund hero and a blistering, mustache-twirling villain. The work is burlesque throughout, but so laugh inspiring that the audience giggled, roared and then screamed. A Rex-stone comedy is to be a feature of every program hereafter.

The management announces the special engagement Wednesday, and for the last half of this week, of Raul Pereira, the Portuguese violinist of international fame and his string sextette, a musical offering that has taken America by storm. The Howard Sisters, the Paris fashion-plates of Louisville are also announced for the near future.

ITALIAN CHAMPION FAILS TO THROW JOSEPHS

Piombo Held Even by Local Wrestler in Hour's Contest

Josephs Topples Opponent
Four Times; Both Men
Go Off the Mat

Arum Josephs, an Armenian wrestler of Fresno, was declared the winner in a handicap bout yesterday in this city as his opponent, G. Piombo of San Francisco, was unable to throw

The match, to a large extent, consisted of Josephs circling around his heavyweight opponent who kept the center of the mat as a large bull confident of himself while the other was

There was a good audience of local people in the Majestic theater to watch the match and they enthusiastically cheered both men. Throughout the bout, however, Joseph had the crowd with him owing to the fact that his opponent was considered larger than himself. There was a sprinkling of women and children in the house.

The wrestlers were in perfect condition except for a cold that Joseph had contracted. This caused him to cough at various times during the match, thus giving his opponent

slight advantage. Plombé tipped the scales at 180 pounds while Joseph entered at 133. They were in active training for this match during the last two weeks. The bout was refereed by Samuel Haynes of Chicago.

JOSEPH'S THE AGGRESSOR.

During the first fifteen minutes Plombé was mainly on the aggressive. Joseph saved himself by making quick, even breaks. During this time neither man went to the floor. Plombé was forced off the mat twice, and Josephs once.

After twenty minutes of wander-
ing around the war, both men closed
quickly upon one another and fell to
their knees. Before either could take
advantage of the fall, both men were
on their feet again.

Just at the half, Josephs rushed his
opponent, grabbed his right leg and
tumbled him over. Pimbo rolled on

the mat and into the scenes on the stage. Within fifteen seconds he was on his feet-and in the center of the mat again.

By this time the bodies of both wrestlers were so wet from sweat that it was difficult for either to get a hold. This condition remained during the rest of the bout.

The next twenty minutes of the match was given over to chasing one another round the mat or tugging at each other with loose holds. It was

PIOMBO GOES DOWN.

After 52 minutes of the bout had been spent, Josephs, goaded by the audience, made a swift attack on Piombo, grabbed him by the right leg with a quick move and toppled him. Piombo rolled over twice going clear of the mat.

They were in the center of the mat again instantly and before another minute had passed, Josephs, by the same move, again toppled his opponent.

Throughout the rest of the match Joseph attempted the same mode of attack but Plombo was too wary for him. When time was called, both men were entwined in each other's arms. During the whole match, both Joseph and Plombo were forced off the mat four times each by one another's rushes.

The preliminary match between Donaldson and Red Selby was declared a draw as neither man was able to throw his opponent in the fifteen minutes.

0

EXPLOSION OCCURS AT BREWERY; NO ONE IS HURT

Escaping Fumes From Oil
Burners Ignite In
Engine Room

Roof Raised Few Inches and
Windows Broken; Noise
Rouses East Siders

Fumes from two oil burners in the engine room at the Fresno Brewery became ignited early yesterday morning and in the explosion that followed the roof was lifted from the main building, windows shattered, bricks thrown for several feet and the report was heard by residents in the eastern section of the city.

No one was injured in the explosion but people who viewed the little engine room after the accident expressed their opinion that had John Weber, the engineer, been in the room he would have been killed. Weber happened to be in another part of the brewery when the explosion occurred.

The two oil burners beneath the steam boiler in the engine room in some unknown manner became extinguished yesterday morning. The oil continued to flow into the burners and the fumes were finally ignited by the remaining heat.

The brick and cement wall about the boiler was blown down and the debris was carried across the room. The window frames were broken and in many cases the frames were blown to the ground. The force of the explosion raised the roof a few inches but it fell back into place.

PUTTING OUT FLOWER BEDS ON SIDEWALKS

A Simple and Pretty Effect
In the Beautifying of
the City

In its proposed beautifying of the city, it cannot imagine a better lot of conductors, if their interest can be aroused by the ladies of the City Beautiful Committee, than the children of the public schools. A remarkable made yesterday by Field Deputy Superintendent of Schools A. E. Hatch.

He is an enthusiastic friend of the movement and while principal of the Hawthorne school, interested the children in the beautifying of the school grounds in the summer. He inaugurated two years ago in the schools under City Superintendent C. L. McLane. The movement was started to late in the term and did not gain much headway. It was not taken up again last year, because apparently the public did not then give it the encouragement that it deserved.

"Beautiful effects can be produced by such simple means and at such little cost," said Mr. Hatch, "of a pretty effect produced by the 'family' of children simply by strolling up the sidewalk, planting a flower bed and putting out petunias. The sidewalk flower patch was on Jackson street, off Ventura, on a 60x100 lot, and I used to walk out of my way to go to and from school simply to gaze on that flower bordered sidewalk path. What a striking city beautifying feature would such flower bordered sidewalks be, if the thing were followed generally over town along the paved and unpaved sidewalks."

**Scientific Methods
Instead of Drops**

Instead of using drops in examining your eyes, we use scientific methods.

The eyes are accurately measured by means of delicate instruments that register the curvature, the depth, and the muscular strength.

With this data it is possible to manufacture the lenses that relieve the eyestrain. No "drops" are used.

35,000 CARS ORANGES, 4,500 OF LEMONS, BIG YEAR'S CROP ASSURED

Fruit Growers of California
Will Have Florida As a
Strong Competitor

Approximately 35,000 carloads of oranges and from 1,000 to 4,500 carloads of lemons will be produced in California during the coming crop season. This is the estimate of G. H. Powell, general manager of the California Fruit Growers' exchange, in a report to the directors of the exchange at the first meeting held since Powell's return from the East several days ago.

Florida's crop this year will be the largest in the history of that state, Powell told the directors, and that strong competition must be expected from the Florida growers. On his recommendation the directors decided to conduct a big advertising campaign through the medium of the exchange at 54 agencies located in nearly all the states east of the Rocky mountains.

Reports from the agencies showed that there is a splendid demand for California fruit and it was decided by the directors that all the employees in the Eastern branches should be retained.

Fifty-four per cent of California's normal crop was marketed in the East last year, while the money returned was \$2 per cent, said the manager. He said that members of the exchange received \$150,000 for last year's production after allowing 2 per cent for marketing.

THUGS ROB VICTIM OF MONEY AND THEN TAKE HIS CLOTHES

John Kerkavian Reports
Bold Strong-arm Act
To the Police

Two strong arm men, not content with stealing \$17 from John Kerkavian of 422 H street, early last night, made him take off his sweater and hat, and with their plunder under their arms disappeared in the darkness. Kerkavian reported the matter to the police, but up to an early hour this morning no arrests had been made. Kerkavian was able to furnish the officers with a very good description of the bold thugs.

He was walking down H street toward his home, and when he reached San Benito street the thugs jumped from behind a tree and, one pinned his arms to his side while the other went through his pockets. The victim fought with the men, but the odds were against him. They pulled his sweater from his body, seized his hat and ran away.

GRANGER WILL PUT ENGINEERS IN FIELD

Says He Will Have Right
of Way Secured by
Saturday

Engineers and surveyors for the electric line that E. S. Granger is promoting eight miles past Clovis will be in the field Tuesday to lay out the curves along the route, was the statement last evening by the promoter. Granger said that by the end of the week he would have the \$12,000 bonus signed and every inch of his right of way secured. He declared that he had interviewed every property owner along the line and that all had agreed to give the line and the bonus.

Granger said that he was not ready to right of way with the property owners where there would be curves, as the line had not been laid out by the engineers.

Alexander Gordon, railroad commissioner, stopped over in Fresno for a short time yesterday en route to Los Angeles and met Granger. The two men discussed the proposed line and explained his proposition. Granger said last night that Gordon remarked that he was following the right course.

SELL TICKETS FOR SHRINERS' CONCERT

San Joaquin Valley Cities
Show Interest; Expect
6,000 People

Col. George Filmer, Commander of Battalion of Patrol

Approximately 3000 tickets have been sold for the shrine concert tour in the Howell Auditorium next Wednesday night and the committee in charge of local entertainment expects to bring the number to 6000, the capacity of the hall, before the date of the Shriners' appearance.

A. B. Clark, a member of the Fresno committee in charge of the ticket sale, states that the demand for tickets has been good and with the approach of the date, he expects a much larger sale than in the past week. Clark expresses surprise at the flood of telegrams received during the past few days from cities of the San Joaquin Valley. Practically every city of the Valley is taking a great interest in the tour and are demanding reservations for Wednesday night.

The Shriners' patrol and bands will appear in Stockton Tuesday, according to C. T. Curley, Wednesday morning they leave Stockton for Fresno and will stop over in Modesto early Wednesday morning for a short street concert and drill.

The company arrives at the local Southern Pacific depot at 11:30. The patrol and bands will march to the hall in front of the court house, where inspection will be held. A luncheon will follow at the Sequoia Hotel. Following the drill and automobile ride Wednesday afternoon, the Shriners will dine at the Sequoia and then adjourn to the auditorium, where the concert will be given.

MANY PLEASED BY SCOTTISH EVENING

Unitarian Church Program
Is Well Received; "Scotland's Product, Men"

A bonnie program of auld Scottish airs delighted a large audience at the Unitarian church last evening in the monthly Sunday evening meeting. It not being a service of worship, but a meeting open to the public, applause was not frowned upon and the contributors to the program were enthusiastically received. The address of the evening on "What Scotland Has Given Us" was delivered by Rev. Thomas Clayton.

The tenor, George Babcock, being ill, the quartet number which was to open the program was not given, instead Mrs. J. A. Wythe singing "Thou Bonnie Wood O' Craiglockhart." A Scottish poem set to music by Composer Macdonald was given on the piano by Mrs. Rosalind Davies and proved to be an impressive descriptive selection, rife with deep, throbbing chords contrasting with light melody of Scottish airs.

"My Love Is Like a Red, Red Rose" (Hastings), was sung next in the rich baritone of J. A. Wythe. He was followed by Rev. Clayton, who spoke on "What Scotland Has Given Us."

"The Juncos who was asked what was ruled on the map just for the shire, replied, 'Me!'—so above all else, Scotland has given us the men," declared the pastor, continuing, "Wherever might has gone to capture and develop the earth, there Scotchmen have been in the fore." In the Victorian age of the Romans in Britain the men who had known the great Caesar at their head were stopped by the Scots and paid these rugged mountaineers the compliment of building a wall to keep them out.

"Scotland has given to the world great heroes and men of letters, and though they are not all of Scotland has given to the world, the principle thing which we have to thank the sturdy Scots for is men."

The speaker continued speaking of Wallace, Robert Bruce and John Knox, the latter of whom he characterized as one of the bravest and most sincere reformers the world has ever seen, traveling to the world, saying: "If Scotland had never produced anything else but Bobby Burns it would still be on the map just for that. If not enough, I might add Sir Walter Scott, who divided the pain with Dickens and the greatest prose writer in the English language, and Thomas Carlyle, rugged, hard-headed old Scotchman whose work on the French revolution is, in my opinion, one of the greatest pieces of literature ever written."

Robert Louis Stevenson, J. M. Barrie, George MacDonald and Ian MacLaren were also given their most praise and the speaker passed on to the scientists of whom he mentioned Tyndall and A. R. Wallace, and to surgery, speaking of Dr. John Hunter of the eighteenth century, Sir Andrew Clark, and the college of surgery at Edinburgh, one of the foremost of today. In the inventors, James Watt and George Stephenson, with the invention of steam engine and locomotive, were praised. David Livingstone was also eulogized during the evening and the secker for world peace, Andrew Carnegie, was praised for his work in that line. In discussion which later followed in which that which Scotland had contributed to the world was con-

RANCH HAND BLAMES COUSIN FOR A CRIME HE IS CHARGED WITH

Identified As Man Who
Passed Bogus Check for
\$75 on Bert Maul

Protecting his innocence, but claiming that he was willing to go to jail if necessary and pay the penalty for the acts of his cousin, who resembled him, Grant Duhamel, a ranch hand, was taken to police headquarters yesterday afternoon by Bert Maul, who was then taken to the sheriff's office and later lodged in jail on a charge of passing a worthless check, Duhamel's last word to the officers when they placed him in his cell was that he was innocent and was being punished for the wrong doing of his cousin. The case will be further investigated today.

On the 15th of this month a man, alleged to be Duhamel, cashed a check at the Brunswick pool hall for \$75. The check was drawn on a Kerman bank, purported to be signed by H. M. Rees, and was endorsed by W. M. Anderson of Dinuba. The check was made payable to Duhamel.

The check was returned to Bert Maul as a forged and yesterday Duhamel was taken to the sheriff's office and lodged in jail. Duhamel denied that he was the man who cashed the check and said it must have been his cousin. Duhamel accompanied Maul to police headquarters. He told his story there. Then the case was referred to the sheriff's office and Sheriff McSwain ordered Duhamel placed in jail.

YOUTHFUL BURGLAR POSES AS REPAIRER OF CHAIR; ARRESTED

Harry Levy Caught in Office
of Dentist; Protecting
Parents from Shame

Harry Levy's ruse that he was in Dr. E. K. Bell's office yesterday afternoon to repair a chair did not fool Kazarian Gazarian, the dentist's assistant, and Levy was lodged in jail on a charge of burglary. The arrest was made by Patrolman Murphy and Harry Knight, a former police officer.

Gazarian went into the dental parlors yesterday afternoon to do some work. When he entered the room he found Levy standing over a chair. When asked what he was doing Levy replied that he had been called to repair the chair. Kazarian knew that the chair was not broken and thinking that the young man was a burglar he summoned the police. When the officers arrived they found that Levy had entered the room through a window.

Levy is 16 years of age. He refused to tell where he came from and would not tell the officers the whereabouts of his mother. He said he was willing to suffer the consequences for his act, but would not drag his mother and father into the affair. Levy had not stolen anything from the office and the police think he had just broken into the room when Gazarian arrived.

TOKYO SECRETARY OF Y. W. C. A. WORK HERE

Reception To Be Given Miss
Margaret Matthews at
Y. W. Tonight

Miss Margaret Matthews, general secretary of the Young Women's Christian association in Tokyo, Japan, will be the guest at a reception to be given in her honor at the local association tonight. Miss Matthews was formerly acting national secretary of the Y. W. C. A., but for a year past has been engaged in her work in Japan. Her visit toward this association in Tokyo has the local Y. W. C. A. contributes its mission funds and the coming pugilist next month will be for the benefit of the Oriental Y. W. C. A.

The public is invited to attend the reception, which will be held at the Normal Y. W. C. A. building, and which will conclude with a social.

A brief program is to be given, consisting of a piano solo by Miss Myrtle Nordstrom, a vocal solo and reading by Miss Christina Ellithorpe, a vocal number by Miss Lillian Elder and a solo by Miss Lillian Downing, accompanied by Mrs. Earl Towner.

Tomorrow morning at 10 o'clock Miss Matthews will meet with the Y. W. C. A. board of directors, at 12 o'clock will take luncheon with the Normal Y. W. C. A. cabinet, and shortly after 1 o'clock will address the assembled normal school of Japan.

stated, J. E. Dickinson reminded those present that the finest stock in the world, horses, cattle and sheep, come from the hills of Scotland, saying that only last week a draft horse of Scottish birth sold for \$47,500, the greatest price ever paid for such an animal. In conclusion, Rev. Clayton said:

"Scotland's sturdy sons and daughters have led on great battlefields, in great colonizing movements all over the world, and their influence is out of all proportion to their number. Long may they continue in the van of humanity."

WANT SUPERVISORS TO CREATE FAIR COMMISSION

Directors of Agricultural
Association Propose To
Disincorporate

"Seven Years Note" Burned
—Fair on Paying Basis,
Money In the Bank

A committee of directors of the Fresno County Agricultural association will appear before the board of supervisors at their next meeting with a request to have them appoint a commission to take charge of the county fair and thus allow the association to be disincorporated. The committee consists of President J. E. Dickinson, Levi Garrett and E. J. York. The commission thus appointed, they claim, would be under the full jurisdiction of the supervisors.

"The Seven Years Note" of the association was burned with all due reluctance at the meeting Saturday. This marked the fact that by consistent work for the last few years the directors have been able to pay back the \$5500 that they secured seven years ago, to carry on the work of the association. The last payment, on what remained of the note, amounting to \$2900, was made from the receipts of the fair this year.

The association now has a balance of over \$2000 to its credit in the bank. While the report for the year has not been completed in full as yet, it shows that the receipts amounted to over \$30,000 and that the expenditures were about \$28,000, leaving a profit of about \$2000.

The report in full for the recent fair will not be completed at some time yet as a number of small bills are yet to be looked up and paid. It is expected, however, that the affair will be cleaned up shortly.

FRESNO TEACHER AND OAKLAND BACHELOR WEDDED IN SAN JOSE

Miss Mildred Jones, formerly a school teacher in the county, and Joseph Rosenberg, an Oakland bachelor, were quietly married last Saturday in San Jose.

Rosenberg met his wife two months ago at a reception in Oakland and immediately fell in love with her. Miss Jones was visiting friends in Oakland. She consented to slip away to San Jose and the couple were married by a justice of the peace. They are making their home with Mrs. Rosie Rosenberg, the groom's mother, in Oakland.

CONVICT ADMITS STEALING MONEY

If B. Humphrey, a convict who was released from Folsom August 28th, after serving a sentence for burglary from Oakland, confessed to Detective Enos and Guehring yesterday afternoon that he stole a purse from under a pillow in the Pacific lodging house and spent \$4. Humphrey was lodged in jail on a charge of larceny, but a larceny charge may be placed against him today. Humphrey since his release from prison has been working at the lodging house. Yesterday morning he entered the room rented by Sarah Sorensen to make the bed and found in pocketbook under the pillow. The temptation was more than he could resist.

PRISONER FIGHTS AND BITES COPS

J. Marderosyan gave Patrolman Murphy and Fornes a big fight Saturday night before he was lodged in jail on a charge of disturbing the peace. The officers were called to a street when Marderosyan started a disturbance. The patrolmen tried to settle the matter without making an arrest, but Marderosyan seized Murphy around the neck and would not let go. Fornes ran to the assistance of his brother officer and finally the man was loaded into a wagon and hauled to jail. He bit Murphy on the leg and Fornes on the hand en route to the bastille.

VARTANIAN WILL NOT RECONSIDER

No successor having yet been named for the Pilgrim Armenian Congregational church, Rev. Arthur A. Vartanian will continue the pulpit for some time, though his resignation has already taken effect. At a meeting yesterday morning the congregation officially requested Mr. Vartanian to reconsider his move, but he stated that his resignation will not be reconsidered. As he will continue to be in Fresno for some time he will probably be asked to continue with the pastorate for several months yet.

JOY RIDE ENDS IN GIRL BEING HURT

As the climax to a joy ride late Saturday night a young girl was thrown out of an automobile on Railroad avenue and sustained a broken arm. The accident was caused by one member of the hilarious party seizing the steering gear and turning to the side. The young woman was brought to this city by a physician and the broken bone set. As the accident took place outside of the city limits no action has been taken by the police department.

EAGLES TO HOLD DANCE TONIGHT

A social dance, for which extensive preparations have been made will be held this evening by Fresno Acle No. 32, Fraternal Order of Eagles, at A. O. U. hall. Many invitations have been issued and a large number of Eagles and friends are expected to be present. The booster committee of the lodge is in charge of the affair. On this committee are H. C. Harvey, W. Scott and T. E. McFayden.

Special Prices On ART SQUARES

We just received two large shipments of In-grain Rugs, the second of which the factory should have held till we disposed of the first. On account of this we have so many we are cramped for room and must get rid of them. They are good heavy quality, part wool, and the colors and patterns are just as good as in the expensive rugs.
